This week's assignment

- Think about your teen space. You can either submit a photo or describe it.
 - Are there comfortable places to sit?
 - Is it age appropriate?
 - Is it separate from the other parts of the library?
 - Do teens hang out there? Why or why not?
- Now think about how it can be improved.
- Pick TWO cost effective things you can do to improve the space. This can be as simple as moving a table or as complex as redecorating. Think about signage, seating and displays.
- How will these changes help improve services to teens? Be specific.
- How will these changes affect other library users?
