## **PROGRAM ABSTRACTS & LOGIN INFORMATION:**

Friday, June 1 (12-1 pm)

### **Three Steps to Thriving in Chaos (Effectiveness Institute)**

The turbulence of current events increases stress, drains energy and reduces productivity. In this webinar you'll learn three essential steps for not only surviving but thriving in the chaos.

For more information and to register, visit: <https://effectivenessinstitute.com/register-for-events/>

Tuesday, June 5 (9-10 am)

### **Free & Open Source Software in Government with Code.mil (DigitalGov)**

Join the Code.mil team for a discussion on open source in government and a look at the important work they've been doing on Code.mil to enable greater adoption of open source at the DoD.

For more information and to register, visit: <https://digital.gov/events/>

Tuesday, June 5 (10-11 am)

### **Effective Workplace Communication Skills, with Andrew Sanderbeck (Utah State Library)**

This interactive and informative webinar program will give attendees the tools that they need to more effectively communicate with others, including those people that we see as difficult or just different. We will focus on the do's and don'ts of effectively communicating with others, including your boss!

For more information and to register, visit: <https://heritage.utah.gov/library/workshops>

Tuesday, June 5 (10-11 am)

### **Reimagining Transgender 'Inclusion' for Libraries (Washington State Library)**

This session focuses on providing a basic understanding of the rich variety of gender identities and experiences, best practices for working with transgender patrons and communities, and tips on where to begin thinking about the impact of library policies on queer and transgender people. Participants will be introduced to trans-inclusive language and basic concepts of gender and sexuality, improved services for transgender patrons, and the opportunity to move beyond basic respect and inclusion to affirmation and representation. This session is appropriate for all types of library and public service workers and will give you practical tips, tools and takeaways to improve your interactions and services for transgender patrons and co-workers.

**Moving Towards Health Equity with GIS (GovLoop)**

Many factors play into health equity: access to healthy foods, quality healthcare, jobs, community support, and social determinants of health among others. The opioid and homelessness epidemics are two issues that many communities face and often affect the same populations, further exacerbating the issues. Given the number of stakeholders and emotions involved, being able to visualize and make data-driven decisions is essential, which is where geographic information systems (GIS) comes in. Knowing where to place treatment options to be more effective can make the difference between a series of disparate tactics and leading with a solid strategy.

**Introduction to Wikidata for Librarians (OCLC Research)**

Wikidata is a free and open knowledge base that can be read and edited by both humans and machines. Wikidata acts as central storage for the structured data of its Wikimedia sister projects including Wikipedia. Beyond Wikimedia projects, Wikidata also provides support to many other sites and services, including the Google Knowledge Graph. It is also relevant to many developing and emerging projects in the library descriptive landscape. In our linked data future, Wikidata may play an important role as a place to find and store metadata and identifiers. This webinar will be of interest to metadata libraries, digital library developers, those interested in linked data and identifiers, and those tracking emerging trends in librarianship.

**Making Space for Active Learning in Your Library (WebJunction)**

Transformation happens when a library reimagines and reconfigures its physical space so that community engagement shifts from passive to active. The fifteen libraries that participated in the Small Libraries Create Smart Spaces project are dynamic proof of that. They learned and applied principles of active learning, placemaking and design thinking to create "smart spaces" where the community learns and creates together and strengthens social bonds. In this webinar, we'll describe an innovative process that any size of library can follow to uncover community needs and translate those needs into flexible lively learning space. Hear about the real experiences of two project participants who transformed drab, underused spaces into hubs of activity and energy. It can happen at your library.
