

The 2020 Census is important to Vermont's future Health & Wellness.

[Click here and respond now!](#)

It's simple, secure and ensures funding for Vermonters.

As we deal with the challenges of the ongoing COVID-19 crisis, responding to the 2020 Census is more important than ever.

**Funding for hospitals, health programs, first responders, and social services depends on every Vermonter completing the 2020 Census.**

**You** can help Vermont ensure we receive our share of these essential services by taking the Census and getting the word out.

**You** can easily respond to the 2020 Census online using a desktop computer, laptop, smartphone, or tablet, and can also respond by phone or mail.

The Census is safe, confidential, and does not ask for citizenship status. It's fast, easy, and for the first time ever, the Census is available online in over 50 languages.

**It has never been easier to respond on your own, whether online, over the phone, or by mail—all without having to meet a census taker.**

**Please help us spread the word!**
