# Vermont Online Library

The screenshot shows the Vermont Online Library website. At the top left is the logo with a lowercase 'i' in a circle and the text 'Vermont Online Library'. At the top right is the title 'Online Resources' with links for 'About Us', 'Contact Us', and 'FAQ'. Below the title is a search bar with the text 'Search Magazines, Newspapers and More...' and a magnifying glass icon. To the right of the search bar is a red button labeled 'Vermont Online Library' and a white button labeled 'Change Library'. The main content area is divided into two columns. The left column is titled 'Browse Resources' and contains four white cards with images and text: 'All Resources' (image of a person looking at books), 'By Subject' (image of a person at a laptop), 'For K12 Students' (image of a smiling woman with a book), and 'View eBooks' (image of hands holding a tablet). The right column is titled 'Reference eBooks' and contains a single white card with an image of hands holding a tablet. Below these columns is a 'Featured Resources' section with two items: 'Gale Presents: Udemy' (with the Udemy logo) and 'Gale In Context: Elementary' (with a graphic of blue spheres). To the right of this section is a 'Popular In Context Resources' section with a list of five items, each with a small globe icon: 'Gale In Context: Elementary', 'Gale In Context: Middle School', 'Gale In Context: High School', 'Gale In Context: Opposing Viewpoints', and 'Gale In Context: U.S. History'.

## Air Pollution

OVERVIEW

A Chinese Man Walks Through A Park Under Heavy Pollution In Beijing

Air pollution is the presence of chemicals in Earth's atmosphere that are not a normal part of the atmosphere. In other words, air pollution is contaminated air.

Air pollution is a serious health issue. According to the World Health Organization, approximately 3.3 million people die prematurely each year from causes directly linked to air pollution, including such examples include aggravations of asthma, emphysema, bronchitis, lung disease, and heart disease.

Air contamination is divided into two broad categories: primary and secondary, with primary pollutants those released directly into the air, including dust, smoke, and a variety of toxic chemicals, such as lead, mercury, vinyl chloride and carbon monoxide. The exhaust from vehicles and industrial smokestacks are examples of primary pollution.

Secondary...
