March

Department of Children and Families Roundtable

- *VT Department of Libraries, Barre
- *Thursday, March 14, 2019 – 10:00-12:00pm

Has your library been impacted by families having a rough time at the library? Do your staff sometimes feel torn between wanting to do the right thing for a child and not knowing what boundaries to set as a library professional? The library as a place for child visitation (supervised or not), among other issues, can cause challenges. Please join us in this informal round table discussion with a Department of Children and Families director as she fields our questions and concerns.
